Sir:

In response to the Office Action dated February 15, 2001, please amend the above-identified application as follows:

IN THE CLAIMS:

Amend claims 45 and 50 as follows:

45. (Amended) A stand on which an optical reader, which has a read window through which scanning light is emitted and a grip enabling a user to grasp said optical reader, and which scans a mark borne by an article using scanning light emitted through said read window, detects light reflected from said mark, and thus reads information, is mounted, comprising:

a holder section in which only one end of said grip is insertably mounted so that said grip can be dismounted freely; and
